Kofoworola "Kofo" Ojo

(+353) 899567333 | kofoojo1@gmail.com

EDUCATION

Trinity College, University of Dublin **Dublin, Ireland**
Bachelor's of Arts Computer Science Joint Honours Expected May 2027
Major in Computer Science, Minor in Business

- **Grade:** (Expected) First Class Honours
- **Relevant Coursework:** Consumer Behaviour, Software Engineering Project I &II, Taxation I, Information Management I & II, Digital Marketing, International Finance, Contemporary Marketing Management

PROFESSIONAL EXPERIENCE/ ACADEMIC PROJECTS

Microsoft (Sponsored Academic Project) **Dublin, Ireland**
Software Engineer Jan 2023 – April 2023

- Engineered a fault-tolerant distributed consensus system using the RAFT algorithm in Python; achieved 99.9% data consistency across a multi-node network
- Built leader election, log replication and fault-tolerance mechanisms; presented technical architecture and trade-offs to Microsoft engineers

Liferay (Sponsored Academic Project) **Dublin, Ireland**
Software Engineering Team Lead Jan 2024 – April 2024

- Led a team of 6 developers to build a job portal on Liferay, owning the project from requirements through architecture to release
- Made key technical decisions on role-based access and the relational data model; coordinated sprints, testing and code reviews and reduced bugs

Relational Astronaut Mission Management System **Dublin, Ireland**
University Coursework October 2025 – December 2025

- Designed a normalised relational schema from an ER model across 8 entities, using functional dependency analysis
- Wrote SQL triggers, stored procedures, views and role-based security to enforce data integrity and automate reporting

PlaylistPal – Song Recommendation App (Group Project) **Dublin, Ireland**
Backend Developer October 2025 – December 2025

- Built a full-stack app (React, Spring Boot) integrating the OpenAI and YouTube APIs to generate and display song recommendations
- Implemented the backend's CrudRepository data layer and REST endpoints; wrote JUnit tests and containerised the app with Docker Compose

PERSONAL PROJECTS

Web Scraper & Data Analysis Tool (Python, Flask, Pandas)

- Built a Flask web app that authenticates with a third-party site, scrapes paginated activity data with BeautifulSoup, and uses Pandas to clean and analyse it for behavioural insights

LEADERSHIP EXPERIENCE

Cultúr Migrants **Navan, Ireland**
Volunteer Event Coordinator May 2025

- Led a diverse team of volunteers to deliver a high-profile cultural event under tight logistical constraints, developing repeatable processes for future programmes

SKILLS, TRAINING, ACTIVITIES & INTERESTS

Languages: Fluent in English; Conversational Proficiency in Yoruba
Technical Skills: Java, Python, C++, SQL (MySQL), NoSQL, HTML/CSS, C#, Flask, Spring, Liferay, Git
Concepts & Practices: Distributed Systems, Algorithms and Data Structures, Object-Oriented Design, Agile/Scrum, REST APIs
